

Computing FLE 3/4 How are computer animations made?

Personal development

Children are aware that animations are a part of wider life. Exposed to possible jobs in IT, animation and creative industries.

Skills

I can make an animation

I can create a story board

I can use effects in animations

I can evaluate my own and peers animation.

Forever Facts

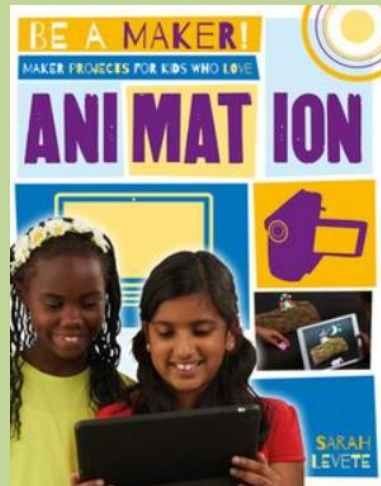

I know that many frames are needed to create a short animation.

That Walt Disney was a famous animator who used pictures to create animations.

That to create an animation you need to keep the iPad in the same place and move the characters a tiny bit.

What I have learnt before:
How the internet works, Scratch, Settings and Characters.

Exciting Books

Our Endpoint

I can create an animation.

Subject Specific Vocabulary

Walt Disney

A famous American animator and cartoon creator famous for Mickey Mouse.

Animator

A person who creates still images and then uses a device (iPad) to create the idea of movement.

Animation

The process of creating still images and then speeding them up to create the idea of movement.

Story Board

A grid of ideas that shows how a story will develop.

Flip book

A 'book' of images that change ever so slightly and when flipped show movement.

Onion Skinning

Using a device to look for frames to edit.

Frame

One picture.
