Autumn Term 2022
Computing
Internet Safety

We found out that cyberbullying is when someone use technology to bully us.

If we fell unsafe:

STOP!

TELL a trusted adult.

We discovered that "pop up" adverts will try and sell us things and that we should not click on them. We searched websites for these "pop ups" that Mr Gargan gave us.
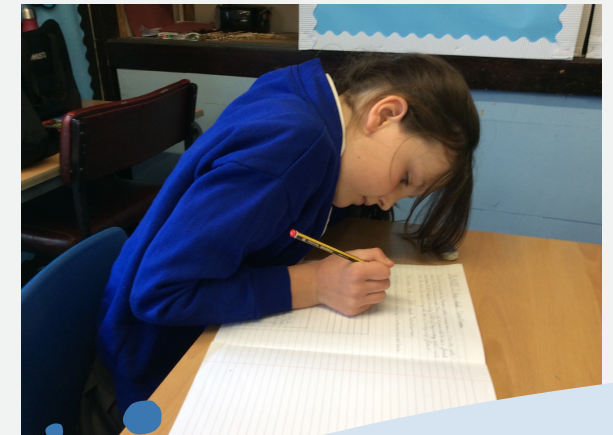

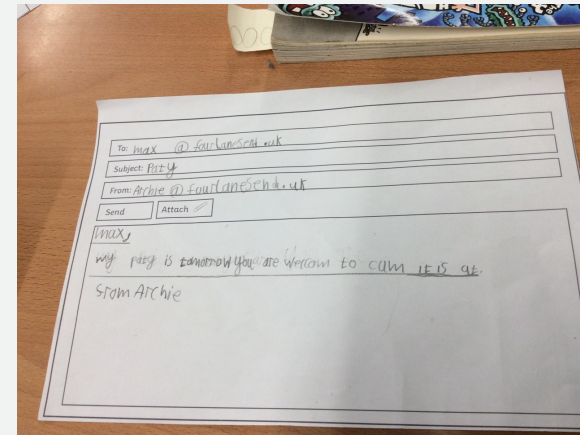

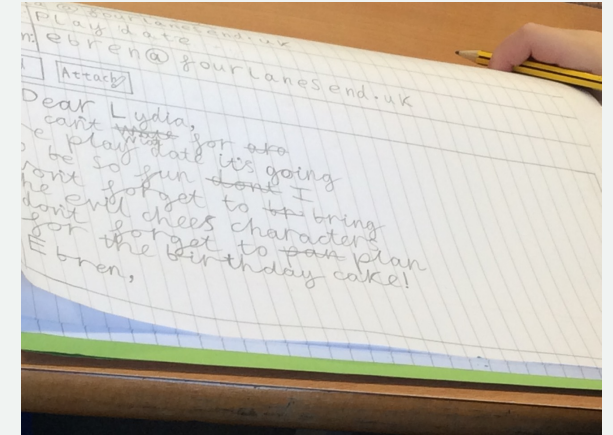

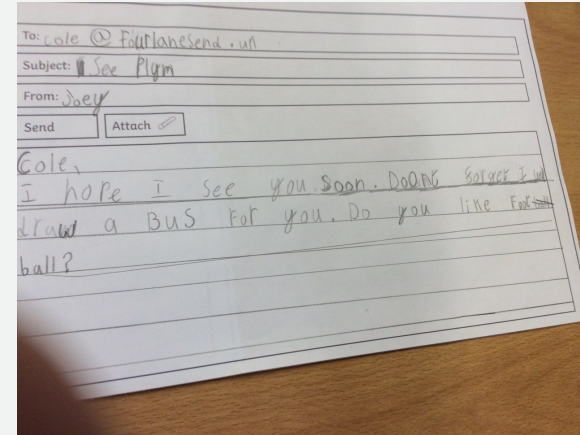

We know that strong passwords and strong privacy settings are important.

We looked at passwords and decided which is the strongest. A password that has numbers, letters and special characters is best.

We looked at email, electronic mail.

We also found out that you have to be ABSOLUTELY precise otherwise the computer will not be able to deliver the email.
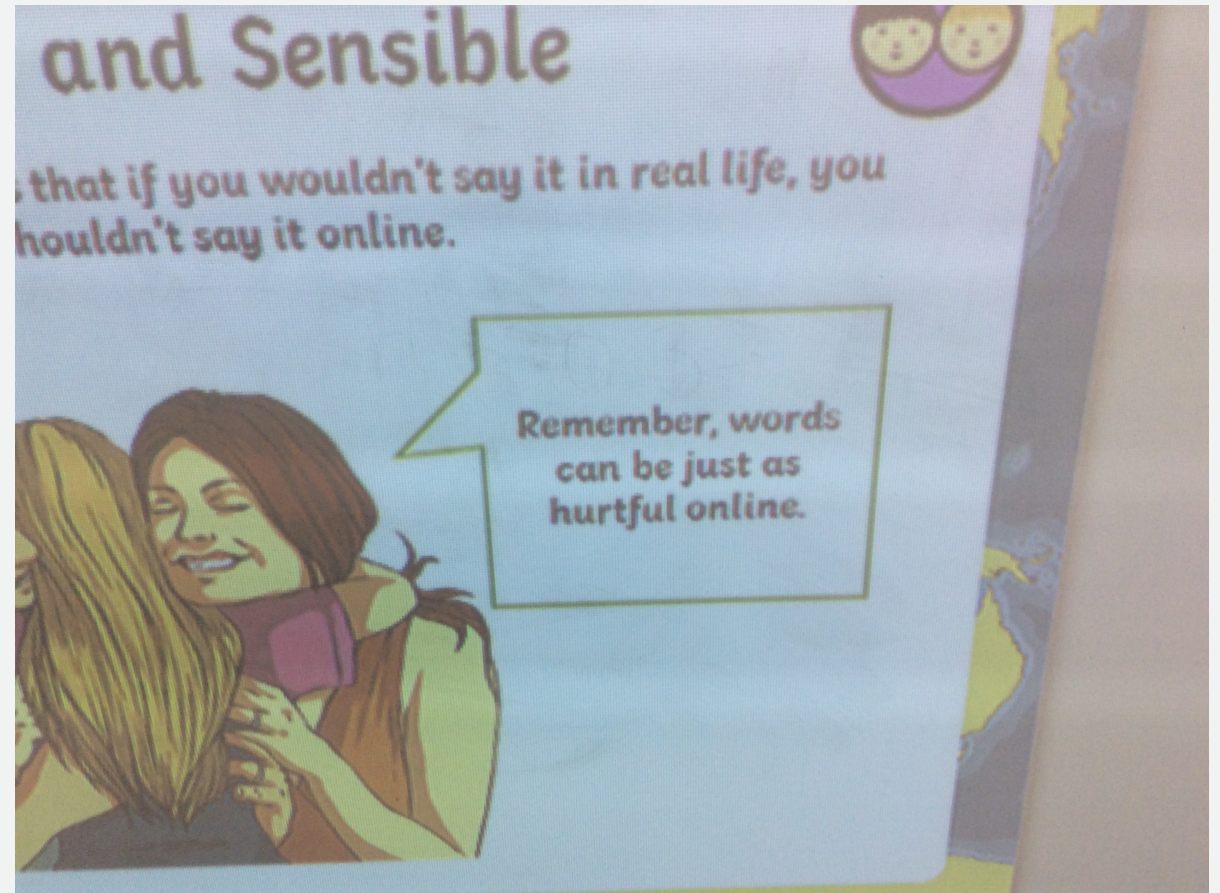

Online Communities are people that have similar interests to us online.

We thought about what communities we are part of.

We also know that we need to "talk nicely" online.

Computing	FLE 3/4	Online Safety

Personal Development

Children understand the importance of online safety and will stop and ask an adult if they feel unsafe.
The internet is a very useful source of information but can contain dangers.
Careers that involve IT.

Skills

I can use technology safely, respectfully and responsibly.

I can recognise acceptable/unacceptable behaviour online.

I can identify a range of ways to report concerns about content and contact.

I understand computer networks including the internet and how they can provide multiple services.

Forever Facts

If I feel unsafe online I will **STOP** and talk to an adult.

The internet is a great source of information BUT can be unsafe.

Cyberbullying can take different forms.

Websites might use adverts.

That technology must be used safely, respectfully and responsibly.

That computer networks can provide multiple services.

What I have learnt before:
Using technology safely and online safety.

Exciting Books

Our Endpoint

I can plan a party applying what we have learnt about online safety.

Subject Specific Vocabulary

Cyberbullying	using phones or technology to threaten or intimidate someone.
Email	a way of sending "letters" digitally.
Password	a word, or series of letters, numbers and characters that allows you to access technology.
Online communities	a group of people, online with a shared interest.
Online safety	ways of keeping safe when using technology.
Secure	to keep safe.
Social Media	Websites and apps that allow users to create and share content with others. For example,
