

Computing – Online Safety.

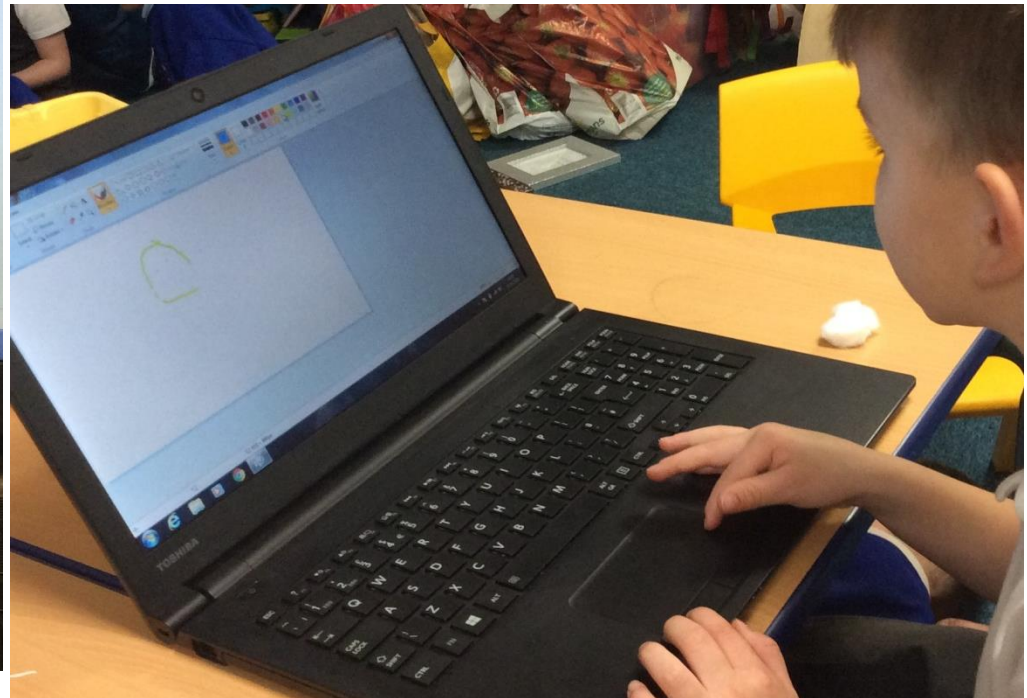

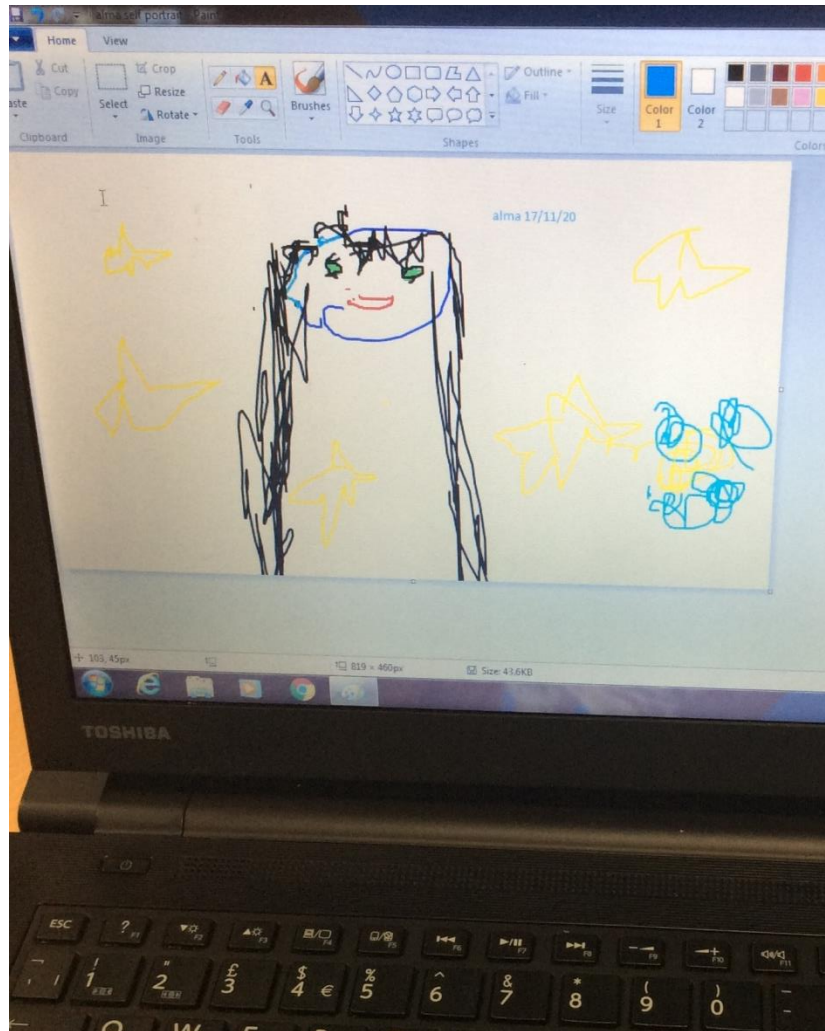

Autumn 2020.

- To use technology safely and respectfully, keeping personal information private.
- To identify where to go for help and support when I have concerns about content or contact on the internet or other online technologies.

Ownership of my work

We learnt about Copyright and how we must name and date our work to prevent anyone else from stealing the rights and using our work as their own.

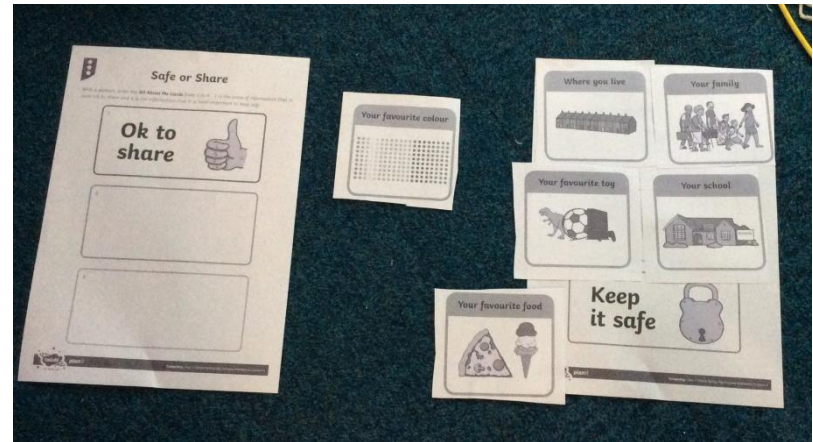

We created our own self portraits on the paint program and then added our name and the date before saving and printing our pictures.

Safe Searching and images

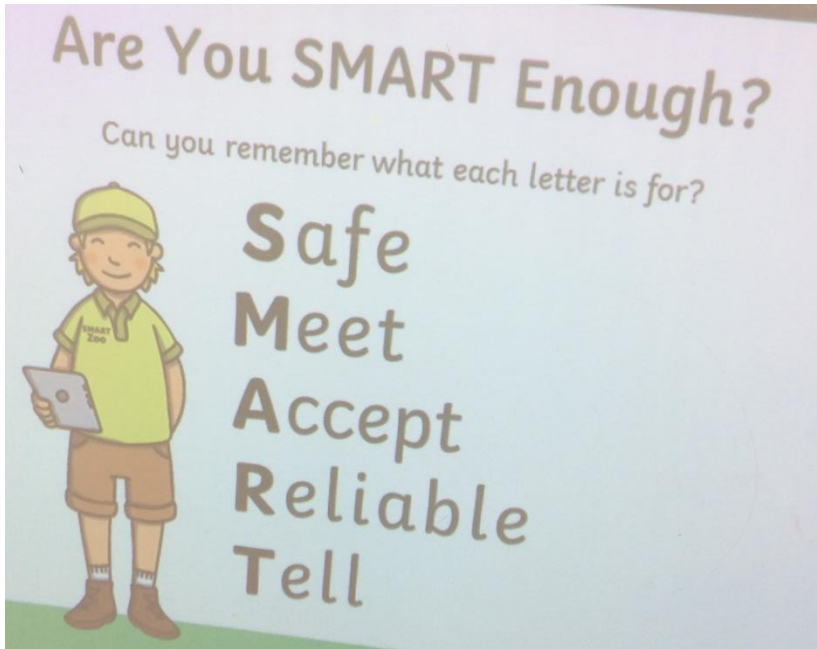

- Alma — we should use *safe search kids* to search for photos
- Hugo — we can use Google
- Archie — we can use Safari
- Alfie H — we can use Jeeves

Sharing personal information

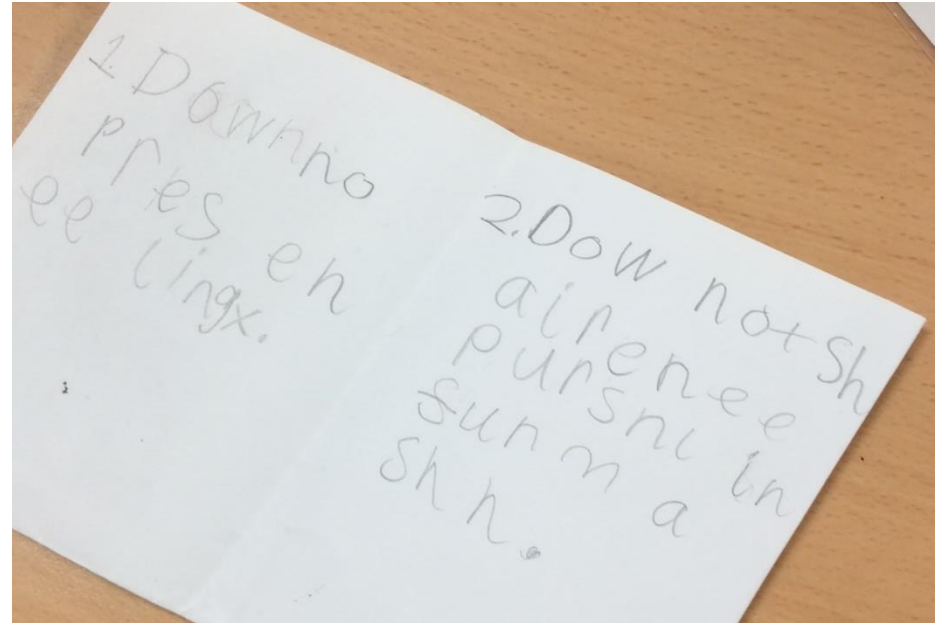

We talked about whether we should share information about ourselves online. We had to change our minds a few times because we thought of different things and disagreed with each other. For example, Alma said that we shouldn't share what food we like because a stranger could use it to lure us away!

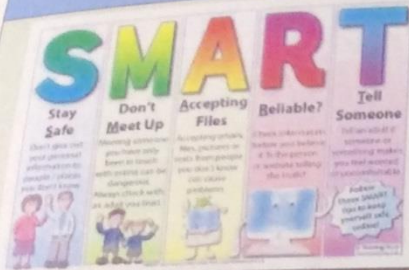

We made bookmarks about staying SMART!

Information for Zibb the alien

We found out that we had an alien visitor coming to Earth and we didn't want him and his friends to get into any trouble on the internet. So we made him and his alien friends a book on how to keep safe!

Write a postcard from Zibb to his family explaining what he has learnt about internet safety.

Knowledge

Anything that you create is yours and belongs to you. FF

Some search engines have filters that make them safer for you to use. FF

You should speak to a trusted adult if you see, hear or read anything online that upsets you. FF

You shouldn't go on things online that are not suitable for your age. FF

If you don't save your work, you will lose it. FF

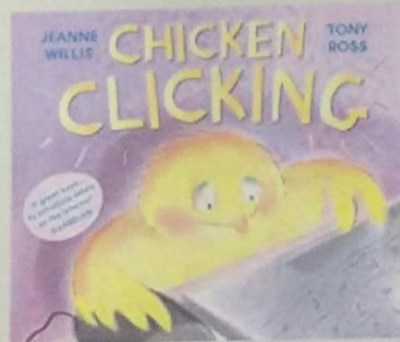

Always remember to put your name and date on your work so that everyone knows that it is yours and cannot copy it. FF

Never click on links without an adult saying that it is okay to do so. FF

You shouldn't ever talk to people on the internet without an adult being with you. FF

You shouldn't ever share personal information with strangers on the internet. FF

Exciting Books

SMSC

Spiritual - having a fascination about learning about the world around us
Moral - ability to recognize the difference between right and wrong.
Social - acceptance and engagement with the rule of law.
